The HOUSE on the Cover

No. 6375—Although spreading across a 76-foot frontage due to the double garage and side porch, this appealing design has a remarkably compact interior for a three bedroom house. A diversity of materials is used for the exterior. Fluted wire glass forms the partition between the dining and living rooms and forms an entrance vestibule. Casement windows give assurance of maximum ventilation.

COMPLETE PLANS AVAILABLE

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The plans are complete and ready for the builder to start construction of the home. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstanding.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U. S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

TO OBTAIN COST ESTIMATES—The square footage is given for each plan to assist in figuring estimates. An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

ALL PLANS SENT ON MONEY BACK GUARANTEE—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

ORDER YOUR PLANS THIS SIMPLE, EASY WAY!

USE THE HANDY ORDER BLANK ATTACHED! Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from any one set of plans. However, in most cases, it is wise to include three or four extra sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want one set for yourself to check on the construction as it progresses. Here's what you get:

PLANS—The complete working plans consist of prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled locally.

SPECIFICATIONS—The specification lists in detail (to be filled in by

you and your builder) the construction of the house from the excavation to the final decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

No. 9542—Picturesque and warmly inviting, this California style ranch house will be very easy to live in. The floor plan arrangement is well designed. The center hall and foyer provides excellent circulation. The living room has many furniture arrangement possibilities. The master bedroom has its own bathroom with an attractive square tub. All bedrooms contain generous sliding door wardrobe closets. A full basement is provided for utilities, storage, recreation room, laundry, etc. If the washer and dryer are desired in the kitchen, they can be placed where the breakfast table is shown. The large concrete terrace behind the garage will make an excellent summertime dining and sun bathing area.

Into the development of these plans has been packed our 50 years' experience helping thousands of families build homes of maximum quality of minimum cost.

No. 9500 — The distinctive character of this contemporary design makes it stand out among all others. Hall space has been kept at a minimum and yet the circulation through the house is excellent. A separate dining room is provided so the family room can be devoted entirely to family living. The kitchen contains adequate cabinet space as well as a built-in range and oven and washer and dryer space. The half bath is conveniently located. A basement is specified on the plans but can easily be omitted using the stairway space for the furnace and water heater and enclosing part of the screened porch for storage room. The large living room windows are partially shaded by the wide roof overhang and the open eggcrate joists.

No. 9032—This brick veneer home is for the family that needs or likes lots of room. Four large bedrooms with two full baths on the upper level, which is entered by means of a beautiful hallway and stairs. The double front door is into a foyer which will permit passage to any section of the home without bothering others. Just to left of living room is the den, dining room and half bath, with kitchen and breakfast nook in the rear. On the double garage level is a large family room, three closets and a full bath. A home you will enjoy to own.

The "reverse" of a plan means that the rooms which are shown on the left in the photo and floor diagram would be placed on the right. All dimensions and proportions are retained in the plan as reversed. To obtain the effect of a reversed plan hold the photo to a strong light and look through the rear side. Reverses are provided to allow you to orient the house to suit your lot.

No. 9034—New low pitched tri-level home with four bedrooms and two baths on the upper level. The built-in planter leading to the upper level adds dignity to the interior. The L-shaped living and dining room area provides ample room for entertainment, also the sliding glass doors leading to the partially covered terrace add still more room. You will enjoy the cathedral type ceiling in the living area. The lower level provides an activity room, double garage, full bath and storage space.

No. 7328—This contemporary split level residence was designed for people who like split level houses but have limited funds. The main levels have only 1,001 square feet. The large sunken living room is down two short steps from the dining room giving it a very luxurious effect while actually adding nothing to the cost of construction. There is an attractive ornamental iron railing between the living room and dining area. On the upper level you find two bedrooms and a full bath. Plenty of closets are provided. The lower level contains a large family room, a boy's bedroom and a combination utility room and half bath, with outside entrance. The washer and dryer are in the family room. The garage is extra large providing plenty of storage and shop room.

Main Levels	1,001
Lower Level	416
Garage	352

No. 7338—There's plenty of design interest in this California type ranch house. Thick cedar shake shingles on the roof, wide overhangs and exposed rafters give this house a rustic appearance. The windows are "Pella" wood casements with removable diamond muntins. The bedroom behind the garage will make an excellent guest or maid's room. The kitchen contains a built-in range, oven and desk. The breakfast bar in the family room is open to the kitchen below the upper cabinets. This makes a handy pass through from range top to breakfast bar. The main bath room is compartmented to assure maximum privacy. It also contains a built-in dressing table. The master bedroom has its own private bath and a built-in dressing table.

Removability

*...the
big difference
in windows*

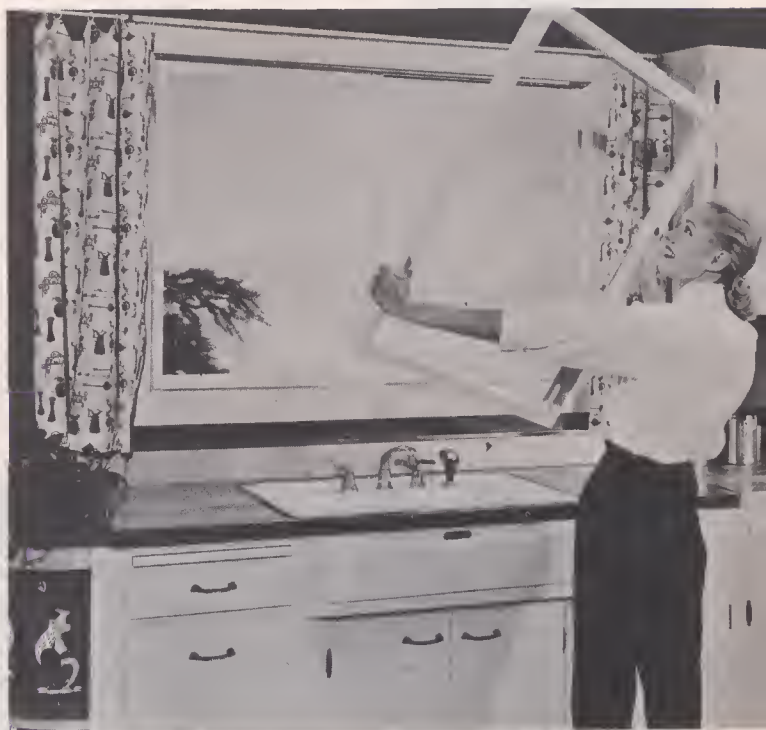

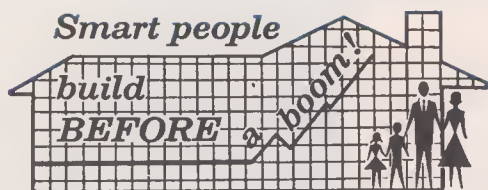

Since cleaning takes about 75% of all window maintenance time—there really aren't *any* maintenance-free windows—wood or metal. But removability *does* make the big difference, because R.O.W Removable Wood windows can be washed safely, inside the home, in half the time.

Wood windows are vastly superior to metal units in insulating against outside cold or heat. R.O.W Removable Wood Windows are, in addition, always held weather-tight by the same springs which permit instant removal of sash for cleaning or painting.

R.O.W and LIF-T-LOX are registered trademarks of the R.O.W Window Sales Co.

New and Unique Lighting for Outdoor Living

Valley Manufacturing Co.

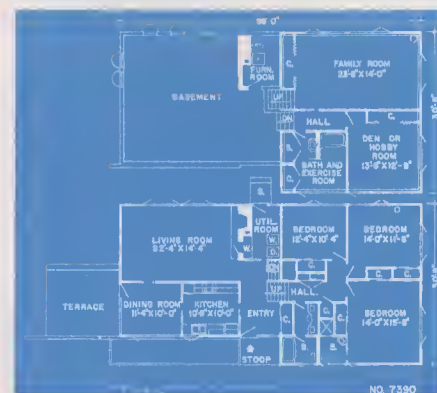

No. 6288 — A new appearance in the split level home. The gambrel roof makes an attractive home, one you will be proud to own. Back of the double garage is a spacious den for you, your children and friends. There is a half bath located on the lower floor. You will enjoy the rather large built in kitchen with an entrance from the rear. Three large bedrooms are in the sleeping quarters with two full baths, one a shower.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made for the designs in our books are sufficient and further details are not needed by any competent builder.

No. 7390 — This Contemporary split level house is a beautiful thing. Construction is frame with colorful cut stone trim on the front. The entry hall provides access to all rooms, without any cross traffic. Three large bedrooms and two full baths are located on the upper level. An extra large family room, den and bathroom are on the lower level. The large bathroom on the lower level is large enough for a reducing table, sun lamp table or exercise equipment. Cathedral ceilings are used throughout with a few exposed beams. The concrete terrace off of the dining room is shielded from the front by an attractive board and batten fence. If the basement is not desired, the furnace and water heater can be placed in the utility room.

No. 7386—Very little outside maintenance will be required on this hipped roof ranch house. The brick and stone will require no care, the windows are aluminum which never need paint and there are no gable ends to varnish or paint. The floor plan is very efficiently arranged. All four corners of the living room are usable for the TV set, radio, Hi-Fi components, etc. The hall bath is close to the three bedrooms as well as the kitchen and living room. A half bath is provided for the master bedroom. The garage is extra wide and provides useful storage space for items used out of doors. Access to the concrete terrace is through sliding glass doors from the dinette.

In purchasing your construction plans from The L. F. Garlinghouse Co., Inc., you are dealing with America's pioneer plan service—one that has had 50 years of experience in designing homes which are lived in and enjoyed by more than one million persons.

No. 7204—The cool mountain stream trickling along at the rear of this home makes it an inviting and attractive place to spend your summer. Without the garage this three bedroom rectangular home is only 35' wide. The vertical siding, low pitch roof and simple lines make it an economical plan to use. There is a full basement with outside Biltodoor entrance at the rear of the house.

HOW MUCH WILL IT COST TO BUILD YOUR NEXT HOUSE?

GET THE ANSWER QUICKLY WITH DIAL AWAY

**End Your Estimating Woes Today
And Smile Again With DIAL AWAY!**

The DIAL AWAY HOME ESTIMATOR comes complete with specifications, full directions for using, and work sheets. It is simple to use, easy to read, and actually makes estimating fun. It is a time saver you cannot afford to be without and it will pay for itself the very first time you use it. Actual size is 9 1/4" in diameter for ease of handling. The price is only \$3.00.

No. 6280—This modern flat top split level is a home you would enjoy owning. There is lots of room in both the sleeping and living areas. The master bedroom with bath has an exit to the balcony which extends across the front of the sleeping quarters. When the living and family rooms are thrown together there is ample space for the entertainment of large groups. A dinette space is provided in connection with the kitchen. The stairway marked "DN" is the inside entrance to the double garage and all purpose room.

No. 6150—Pictured above is a home where the family has room to really live in the living room, and note the spacious kitchen with a large breakfast bar. Yes, there is also a large dining room. Four bedrooms are located on the top level with two bathrooms, one with tub and one with shower. On the garage level immediately below the bedrooms is a family den or hobby room where young or old can enjoy life, again we find a full bath with shower. A large glassed-in porch is found on the ground level outside the living and dining room.

No. 7368 — This is a very attractive concrete masonry home. Standard size concrete blocks are used for the exterior walls. Every other horizontal mortar joint has been raked out to achieve the unusual effect. The flag-stone foyer is sunken several inches below the main floor level. All three bedrooms are large and each contains two large closets. The living room has been placed at the rear for maximum privacy and convenience. Sliding glass doors open onto the concrete terrace. The kitchen and dining room feature open planning. The kitchen contains a built-in range and oven as well as washer and dryer space, double sink and lots of built-in cabinets. The oven cabinet is placed at an angle which allows a small planter between the oven and wall. This is very attractive. The garage is extra large and provides storage space at the rear.

No. 7394 — This stone trimmed conventional ranch house is as practical as can be. The front door is recessed two feet so the roof overhang can provide maximum protection from the weather. There is an attractive ornamental divider and planter just inside the front door. The planter is movable and can be used in any corner of the living room or in the hall. The bathroom contains both tub and shower and is compartmented so that more than one person at a time can use it. Although there is a full basement, washer and dryer space is provided in the kitchen. This should appeal to the busy housewife. The stairway to the basement has direct access to the garage and the outdoors. This is a well designed, attractive house with no waste space. The garage is extra long to provide useful storage space.

No. 7362—This smartly styled contemporary home has a floor plan equally as modern. The whole house is up-to-the-minute throughout with its low trim lines and large glass areas. Windows with fixed sash are used on the front and wood casements are used on the sides and rear of the house. Eating space is provided in both the kitchen and the dining area. The two spaces can be combined when necessary. The central bathroom contains a large shower which can be replaced by a tub if desired. A full bathroom is also provided in the master bedroom. This bath could be only roughed in during the initial construction and the fixtures added at a later date. The kitchen is nicely arranged and contains a built-in range and even as well as a washer and dryer niche. The furnace is centrally located for maximum efficiency. Adequate storage space is provided next to the carport.

No. 7282—This split level design is quite unusual and has many desirable features. The floor of the foyer is flagstone so wet and muddy shoes can't hurt it in the least. The planter backed up by the cut stone fireplace is very attractive. The living room level is up six short steps from the foyer. The large family room will be an excellent place for informal entertaining. The half bath serves both den and family room. The top level contains four bedrooms and two full bath rooms.

No. 7384—The kitchen is in front and the living room is at the rear on this compact design. This is the way many modern housewives want their houses designed. The kitchen is well arranged with a built-in range and oven, space for the washer and dryer and plenty of cabinets. The dining space in the kitchen is adequate for all but large gatherings. The inside and outside storage closets

exceed the minimum area specified for F.H.A. standards. All the closets are extra large. The living room opens onto the concrete terrace through large sliding glass doors. The windows at the rear of the living room are high, permitting furniture to be placed below them. Many different furniture arrangements are possible in this living room.

No. 9502—Those who appreciate a beautiful house will study this one for a long time. Plank and beam construction is used throughout the house for the ceilings and roof. The attractive semi-open stairway in the entry leads to a large recreation room in the basement which has a massive cut stone fireplace. Two terraces are featured. The lower one is more informal than the upper one and has a barbecue oven. An ornamental wood fence shields this area from the street. The traffic pattern on the main floor is excellent. Any room in the house can be reached from the front entry or kitchen without going through another room. The sun deck is another interesting feature of this truly contemporary design.

No. 9514—If you want to enjoy living at its best this is the home for you. A fireplace unit provides a fireplace for the living room and one for the family room while at the same time there is insured privacy in each area. Sliding glass doors lead from the family room to a large terrace with a barbecue.

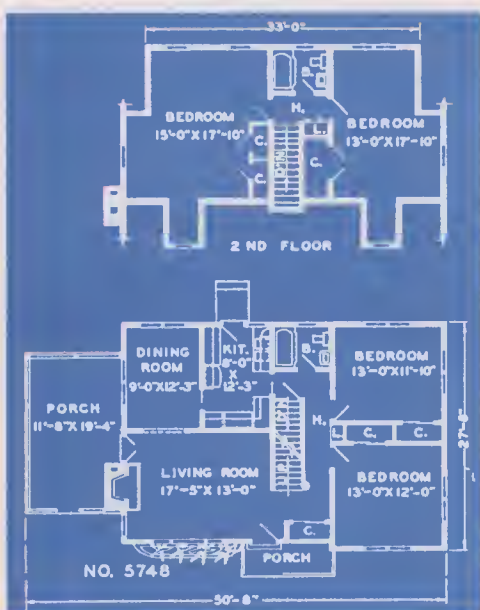

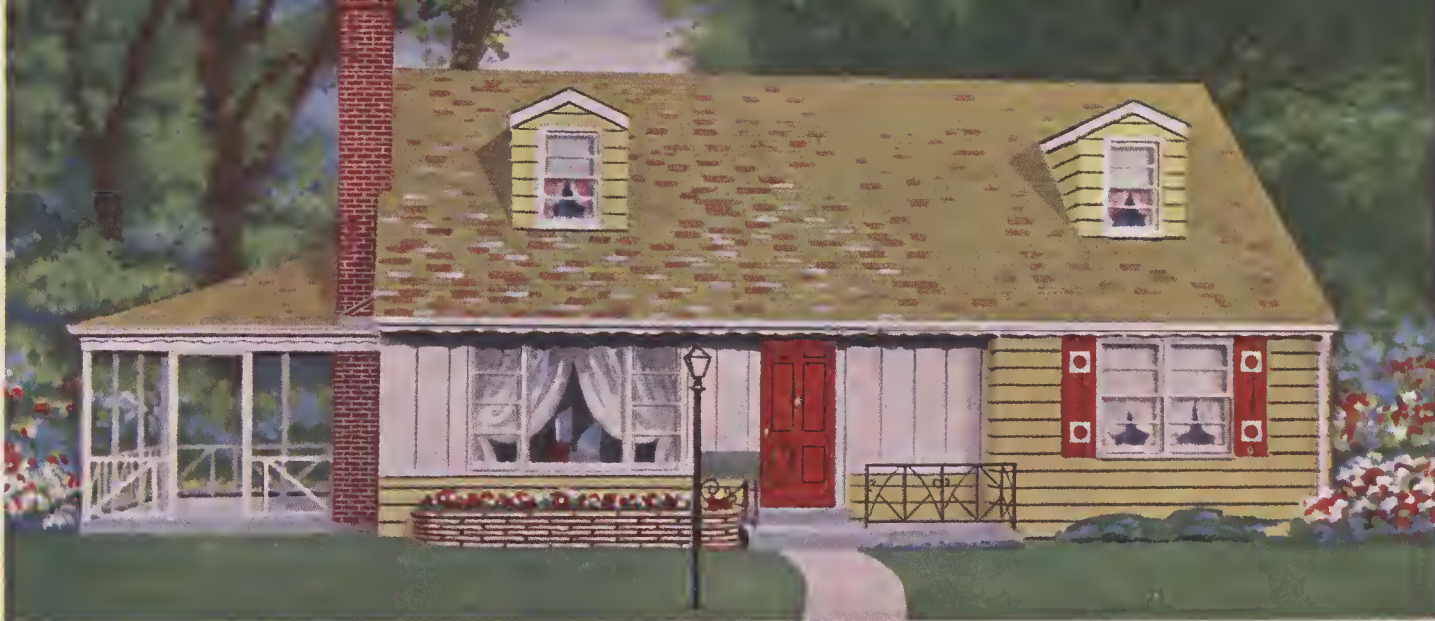

For the do-it-yourself fan, there is a shop with lots of room located behind the garage. A lavatory and mudroom are handy to the outside and allows one to clean up before entering the main part of the house. There are three good size bedrooms and two full baths. The spacious kitchen is well arranged and has a cozy breakfast nook. A big two-car garage which has access to basement and kitchen complete the picture.

No. 7388 — Here is a contemporary house with an exterior appearance that will attract the notice of passersby. Interior design is equally distinguished. Cathedral ceilings are used throughout. The open plan has been emphasized in the living room, dining room, kitchen area but a folding partition is provided so the kitchen can be closed off when desirable. The kitchen deserves special mention for its unusual size and arrangement. A built-in desk, oven and range, as well as refrigerator, dominates the inside wall. The laundry equipment is at the end and the double sink and long base cabinet is on the outside wall under the large windows. The corner windows in the kitchen are made passible by making a 3'-4" set-back in the house. The three bedrooms all have extra large closets with folding doors that go all the way to the ceiling for maximum use of closet space. The bathroom is extra large and contains a built-in lavatory and built-in dressing table. There is a large basement area which contains a bath with shower, furnace and water heater and space for a large recreation room with fireplace. The flagstone terrace is completely under roof and makes an excellent play area and outdoor dining room.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS. It is impractical to change the tracings of the master plans to show alterations for individual cases. However, minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually costs several times the price of our stock plans. Secure your plans through your lumber dealer, savings and loan association, or directly through The L. F. Garlinghouse Co., Inc., Topeka, Kansas—America's pioneer plan service.

No. 7218—This plan deserves first place because it has all the conveniences one could ask for in a resort home. The living room on the first floor and the family room on the lower level have large windows on two sides which provide a panorama of lake or mountain scenery. Note the convenient entrance on the lower level. When you are returning from fishing, hunting, hiking or whatever the sport may be you have access to the lower shower and bath before going through the rest of the house. There are three bedrooms and full bath on the first floor with kitchen, dining and living rooms. You will really enjoy the recreation room, family room and patio.

2. Framing elevations
3. Complete framing plans
4. Material list
5. Wall sections
6. Floor plan
7. Roof plan
8. Plot plan
9. Kitchen cabinet details
10. Basement or foundation plans
11. Window and door schedule
12. Specification & Contract booklet

COMPLETE PLANS AVAILABLE

Garlinghouse plans are very complete, ready for your builder to begin construction immediately. They are drawn in accord with FHA and VA requirements, subject of course to local interpretations. The working drawings are liberally dimensioned. They contain drawings and notes designating the location and type of materials. With these plans, your builder can estimate accurately the cost of building the house in your

area, then of course use them for the actual construction of your home.

When you order the reverse of a plan you get the same quality of drawings that you get when ordering them as shown. The lettering and dimensions are not backwards. There is no chance for errors due to an upside down plan. Garlinghouse plans will save you money.

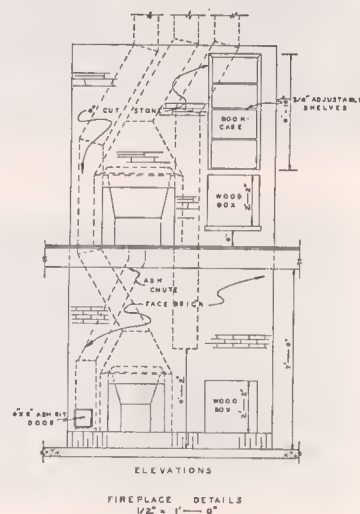

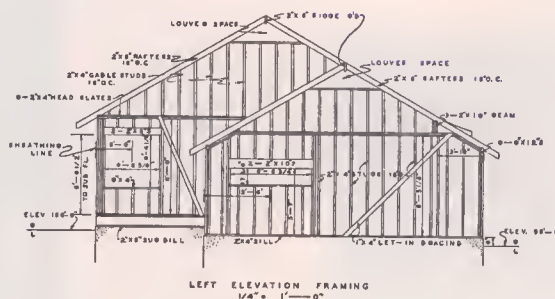

CONDITIONS, SPECIFICATIONS and CONTRACT

For Plan No. _____

All blanks in these specifications that apply to this particular building to be filled in, and all blanks and specifications which do not apply to be crossed out. Great care should be taken that all necessary information concerning the building is clearly set out in the specifications.

MATERIAL LIST

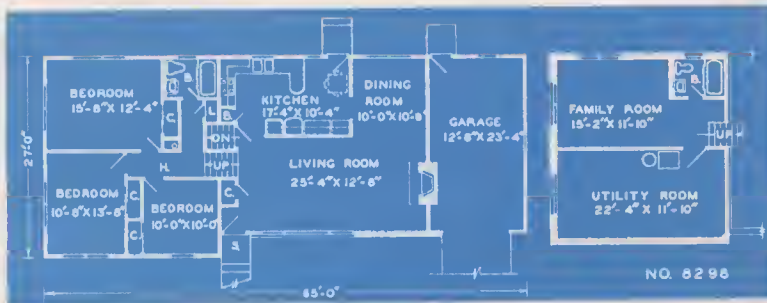

The material list includes all lumber, millwork (doors, windows, trim, etc.), roofing, masonry (concrete, brick, and stone), steel, interior wall finish, kitchen cabinets, linoleum,

insulation, etc. You receive a copy of the material list with each set of plans you order.

ORDER YOUR PLANS TODAY

USE THE HANDY ORDER BLANK ATTACHED! Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from only one set of plans. However, in most cases, it is wise to include three or four extra

sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want a set for yourself to check on the construction as it progresses. Remember, you save money by purchasing your extra sets with the original set and you also avoid delays in case you need extras and have to order them later. Don't Delay! Buy Today!

Utility Level	617
Garage	312

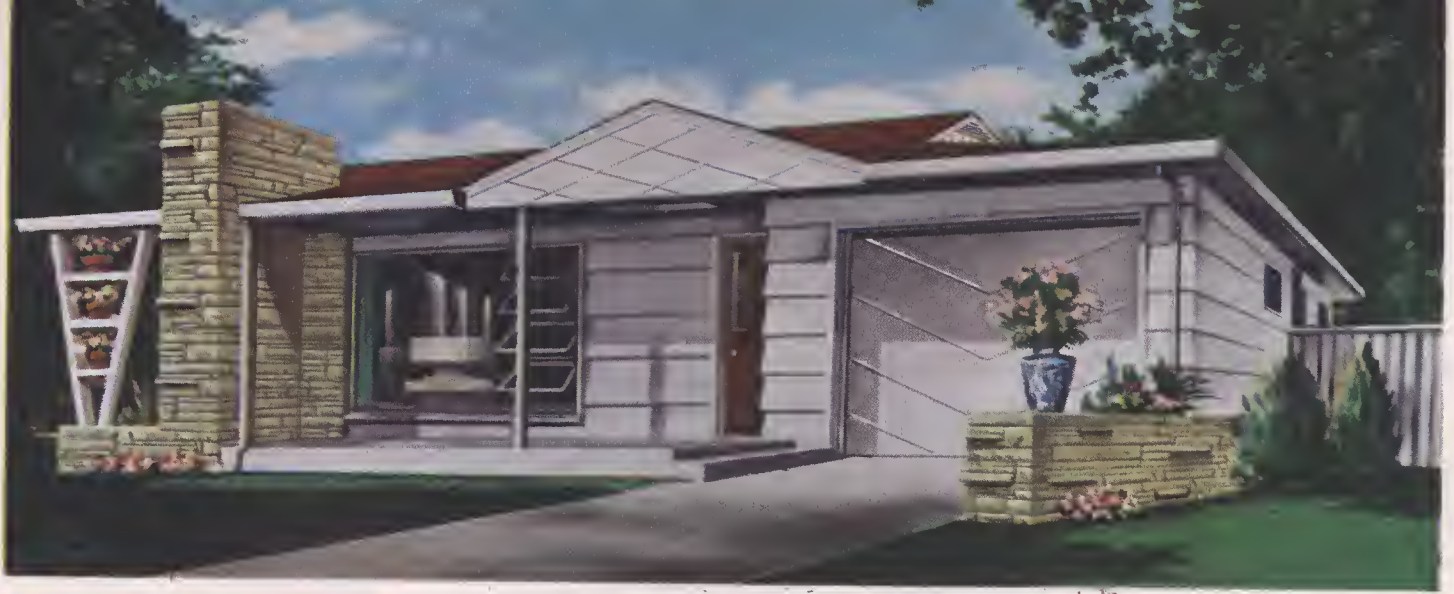

No. 8298—This plan has new modern lines and looks of the multi-level home. The garage is on the same level with the living quarters. The lower area has a large family room, utility room and a full bath. There is another full bath on the top level in conjunction with the three bedrooms. The kitchen is conveniently arranged with built in equipment.

No. 9528 — Here is a truly contemporary design. The exterior is very attractive with the cut stone wall, the high gable end windows, the fluted glass side-light and the ornamental doors. The floor plan is conveniently arranged and good circulation is afforded by the central hall which eliminates all unnecessary traffic through the living room. The bath and a half are centrally located and have their plumbing backed up for maximum economy. Skylights are specified for the bathrooms for natural light. Exhaust fans provide adequate ventilation. A full basement is provided but the washer and dryer are in the kitchen to save the housewife many steps.

The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error, which is often the case if approximations are made on a square-foot basis.

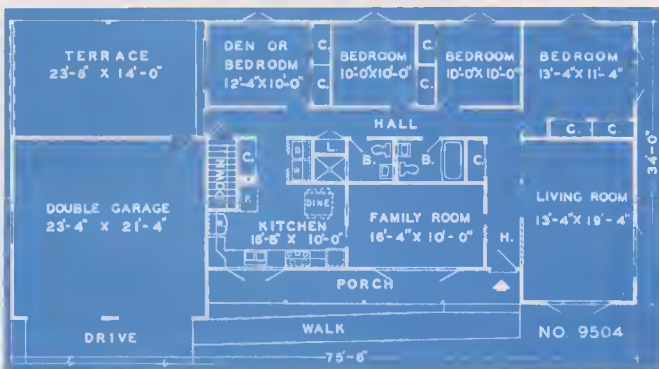

No. 8132 — Truly a ranch house designed for the wide open spaces. Many outstanding features are incorporated into this beautiful home. Note the size of the various rooms particularly the living-dining room and the excellent window treatment across the entire front of the house. A planting box is used for dividing the living and dining area but does not cut down the spacious effect of the long room. The screened porch, open porch and terrace invite outdoor living.

No. 9504—If you need four bedrooms and want a house with good circulation consider this ranch style design. The two full baths are located in the center of the house with the plumbing backed up for maximum economy. The kitchen contains a built-in range and oven, freezer space and a dining area. The washer and dryer niche is conveniently located between the kitchen and bedroom hall. The large concrete terrace is fully covered by the roof for maximum protection from the weather and sun. A full basement is provided for storage, utilities and recreational areas.

Garage	528	Duplicate sets with original order.....Per set, 5.00

No. 9526—If a garden view plan is to your liking, then here is a contemporary ranch style home to consider. The living room runs from front to rear with large glass areas on both ends. Thanks to the well-planned traffic pattern, each room is readily accessible from any part of the house. The low pitched butterfly and gabled roof and glass block panels are design features that add to the exterior appearance of the home.

Area	Sq. Ft.
First Floor	1,298
Basement	1,298
Garage	264

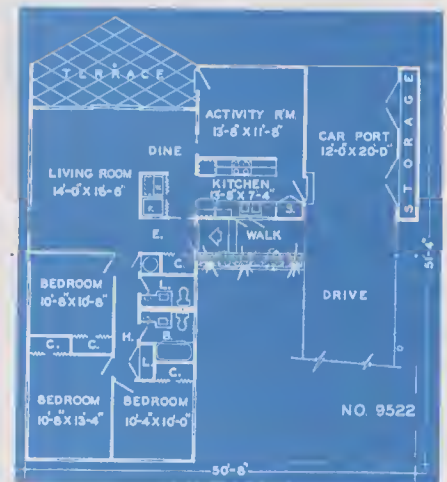

Na. 9508—This house was designed so that the breezeway and garage can be omitted without detracting from the appearance of the house. By omitting them the house can be built on a very narrow lot. The housewife can certainly see what is going on from the kitchen. The four casement windows will provide more than adequate light and ventilation. Two full bathrooms are provided. The one with shower is very convenient to the master bedroom, kitchen and rear service door.

*To build without complete plans invites misunderstanding.
Secure yours today.*

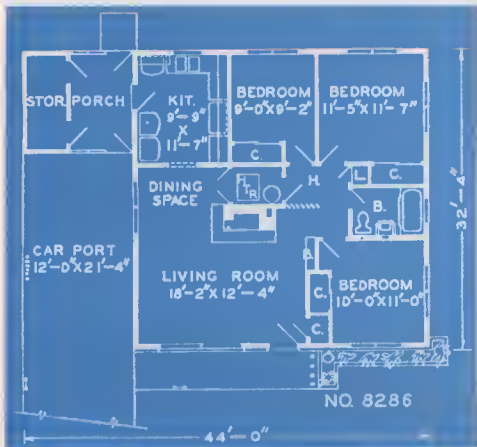

No. 9522—This three bedroom contemporary design has wide roof overhangs all the way around. Both the front and rear entrances are completely covered and protected from the weather. The attractive terrace at the rear is accessible from the living room and activity room. The central hall offers excellent circulation. The washer and furnace are conveniently located near the kitchen.

No. 8282—The living quarters of this house are only 47 feet wide but it provides three bedrooms, an all purpose room, living-dining room and a large kitchen. There is no basement—the heating unit and water tank are located between the kitchen and fireplace. There is 1 1/2 bath. There is a breezeway and a double garage with ample space at the rear which extends the overall width to 75 feet.

No. 6116—This is a split-level you will want to consider. Livability, comfort or recreation, whatever you are looking for this home can provide. For your enjoyment, there are three fireplaces, one each in the living room-family room and recreation room. Three large bedrooms and two baths above the garage on the upper level. Back of the garage is a large den or it may be used as a fourth bedroom with full shower bath. There is a spacious recreation room which may be enjoyed by all the members of the family.

★ ★ ★

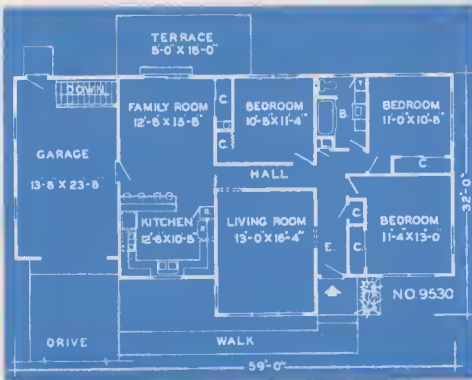

No. 5212—Very modern in design, this three bedroom house has been planned in order that the garage shown on the right and the rear bedroom may be omitted at the time of construction and added later when required. The roof is built-up and extends out 28 inches on all elevations. The large picture window is accentuated by using scored plywood in the area around the opening, however, conventional siding may be substituted.

Area	Sq. Ft.
House	1,278
Garage	277
Basement	1,278

No. 9530 — This three bedroom ranch design has an excellent traffic pattern. Access to any room in the house is provided from the central hall. The family room and kitchen, feature open planning which tends to make the rooms appear even larger than they really are. An attractive breakfast bar serves as a divider. Sliding glass doors lead from the family room to the terrace. The basement stairs which have been placed in the garage lead to a full basement.

Area	Sq. Ft.
First Floor	1,284
Basement	1,284
Garage	340

No. 9532 — This contemporary split level design has just about everything you could want in a home. Three of the four bedrooms open onto the attractive open air balcony. The master bedroom has three large double gliding windows as well as the gable end windows. All this glass certainly provides more than adequate light and ventilation. The master bedroom also has its own full bathroom. The other bedrooms are served by the compartmented bathroom which allows more than one person to use it at a time. This bathroom has a shower in one compartment and a tub in the other. The country kitchen which combines the dining room area with the kitchen is a very popular feature. The mud room, with washer and dryer, and the half bath, right next to the kitchen, will save the busy housewife many steps. The double garage is extra large and has plenty of workshop and storage space. The den could be used for many purposes such as study, hobby room, maid's room or bedroom. The recreation room is very large and has its own woodburning fireplace as well as half bath.

No. 8148—The unusual cornice treatment gives this flat roof design an outstanding appearance. The cornice extends out to give a wide overhang and is extended down to the window line to achieve the modern and unique lines. The built-up roof is slightly sloped to the rear for proper drainage. The plan shows an efficient room arrangement.

STOP WASTING FIREPLACE HEAT build masonry around **HEATFORM** WARM AIR-CIRCULATING FIREPLACE UNIT

BEFORE YOU BUILD OR REMODEL, obtain complete information about HEATFORM, which captures and circulates through the home a large volume of heat lost up the chimney by the ordinary fireplace. A HEATFORM fireplace is the heart of the home — no other modern convenience contributes more to comfortable living.

HEATFORM is a complete unit, hearth to flue, and a **PERFECT GUIDE** around which masonry walls are easily built, **ASSURING SMOKE-FREE OPERATION.**

HEATFORM is a part of the fireplace. It replaces the masonry firebox lining and throat damper and saves some labor necessary in the construction of the ordinary fireplace. The small extra cost of HEATFORM is returned many times over in fuel saved and added comfort.

HEATFORM is available in five models and various sizes. **THE ARCHITECTURAL DESIGN OF THE FIREPLACE IS UNLIMITED. INSIST UPON HEATFORM.** For efficiency and durability, **IT HAS NO EQUAL!**

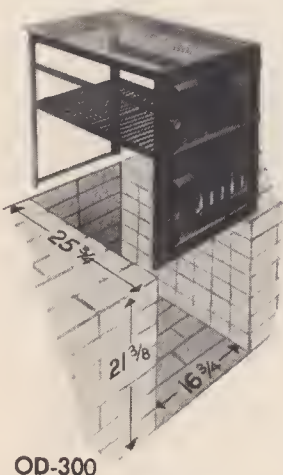

SUPERIOR HI-FORM DAMPERS

Where the extra volume of heat captured and circulated by HEATFORM is not required, use the **TIGHT-CLOSURE Superior HI-FORM DAMPER**, which forms the complete throat from lintel to smoke flue, **ASSURING SMOKE-FREE OPERATION.** Made of heavy steel for lifetime service — **NO BRITTLE CAST IRON PARTS TO BREAK.**

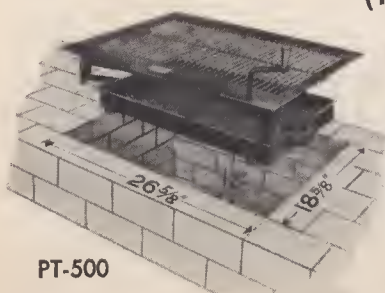

The rockwool blanket furnished with HEATFORM and HI-FORM DAMPER is the only proven method of absorbing metal expansion to prevent masonry cracking.

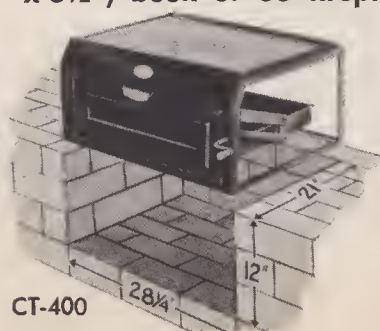

Model "L" for single opening tapered fireboxes only.

OD-300

PT-500

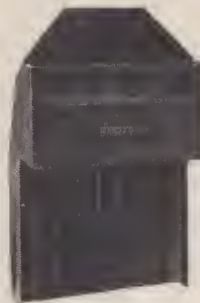

CT-400

Model "A" for single opening fireplace.

Model "MH", complete with fuel grate and copper-hammertone finish hood.

Model "S" for corner fireplace with view of fire from front and either side.

Model "M" provides view of fire from front and both sides.

Model "D" for the fireplace opening through between two rooms.

Model "H" for multiple opening square fireboxes.

Feastmaster BARBECUES

Complete indoor or outdoor barbecue units ready for **EASY INSTALLATION.** Handsomely styled of sturdy steel construction. Maximum simplicity of operation. Easily removed for cleaning.

MODEL OD-300 for outdoor fireplace. Adjustable grate. Charcoal-hammertone finish.

MODEL PT-500 and **MODEL CT-400** for use in kitchen, patio, or outdoor pit. Turn of crank raises or lowers fire. Grill remains stationary. Charcoal or copper-hammertone non-toxic baked enamel finish. All grills are plated. Electric motor and spit available for all models.

WRITE TODAY for free detailed information on all models of **HEATFORM, HI-FORM DAMPER, and FEASTMASTER**, or enclose \$1 for 52 page (11" x 8 1/2") book of 88 fireplace designs, selected

from National Prize Winning Photo Contest, and other valuable fireplace information.
